

THE ITALIA COLLECTION 

Welcome

WELCOME TO KATELL, A COMPANY SPECIALISING IN THE DESIGN AND MANUFACTURE OF HIGH QUALITY FIRES AND FIREPLACES.

Our ongoing commitment to high quality and exceptional performance is reflected in this stunning collection of electric fireplaces.

Each fireplace is lovingly designed and created here in the UK and our team of skilled craftsmen ensure products are perfectly suited to your interior and changing lifestyle.

Admiring our fires and fireplaces first hand is the best way to appreciate their stunning design and quality.

Working with leading fireplace retailers across the UK, we are confident you will find the perfect electric fireplace for your home.

THE ITALIA COLLECTION

The Italia Collection from Katell is an exciting range of electric fireplaces, featuring our stunning Eco and Optimyst ranges.

Choose from a range of finishes to suit your home style and decor, from pearlescent to soft white, or concrete to marble effect - our finishes always add something special to your interior. The choice is ultimately yours!

There's a fireplace in the range to suit every property type and every room setting to create a welcoming focal point with great visual impact.

NEW! Premium Woodland Oak Log Beds

As an upgrade to our fuel beds we also offer a premium quality woodland oak log set which will further enhance the charm of your stunning Katell electric suite.

They can be used on any iRange Slim, iRange Deep and Luminosa fires featured in our Italia Eco range.

Please refer to the appliance manual for the removal of the front window. We suggest you use the black embers that are provided with the appliance to ensure you enjoy the twinkling glowing underbed with your real log set.

Italia Eco Optimyst & Electric Stoves

The beauty of a real fire with the simplicity of electric, that's what an Optimyst brings to your home.

Patented technology creates an ultra-fine water mist that rises up through the log-bed. A glowing light reflects against the mist creating an illusion of flames and smoke - so authentic it may be mistaken for the real thing.

Look out for our Optimyst models, including our two brand new stoves. You won't be disappointed.

Italia Eco Fireplaces

Designed to meet the new EcoDesign legislation, our Italia Eco fireplaces are equipped with the latest technologies.

You're in control

Italia Eco fireplaces feature the latest heater controls that regulate their use through intelligent sensing and timers. The adaptive start operation switches on the fire in advanced of the programmed start time to ensure the room temperature is correct. All our Italia Eco fireplaces feature an electronic thermostat. The fire provides automatic heat control producing up to 2kW heat when required.

Room temperature control & open window detection

When the control detects a rapid drop in room temperature, it is perceived that a window or door has been opened and the fire will cut off saving energy. When the temperature starts to increase the fire returns to normal operation.

7 day timer operation

The fire can be set to operate at specific times each day throughout the week. These times can be changed to suit your personal choice.

Smart App Controls

Control your fire with ease by downloading the C&JsmartFIRE app on Android and Apple. Personalise each element of the fire on your phone.

LCD Fire

The brand new LCD fires utilise high definition screens to show multiple variations of flame effects in your home to set the perfect atmosphere.

5
years
Extended
Warranty

2 years parts & labour, with a further 3 years parts only*.

* Only available on Eco products. Products must be registered within 30 days of purchase.

Caring for our environment

When you buy a timber electric fireplace from us, you can be confident that you're helping to protect the planet. That's because all our timber is sourced from sustainable managed forests.

Certified Quality

Enjoy peace of mind when you buy from our range of quality assured products. Certified to the latest ISO 9001:2015 and ISO 14001:2015 standards.

Proud to be British

Our market-leading product range is manufactured by us, in the UK, at our 50,000 sq ft base - home to the latest CNC machinery. With room for continued growth and expansion, we're proud to create British products for British homes.

There's more online

In addition to this beautiful selection of electric fireplaces, Katell manufactures other fireplaces and surrounds. To see our full collection of products and services, visit our website at www.katell.co.uk

World class customer service

With us, you'll experience the best possible service. We've always been at the forefront of customer care - and our friendly, trained team are on-hand to answer your technical queries and provide the solutions you need.

Aprila

The Aprila floor standing or wall mounted landscape media base unit. Serving as a focal point in the room, providing both warmth and entertainment, while also maximising space efficiency and enhancing the overall aesthetic.

The integrated Eco Design electric fire features an authentic large log bed with optional decorative transparent slate. Enjoy up to 2kW of heat output or simply use the flame effect for a welcoming glow. Thanks to the clever 'smart remote', you're in control of a range of functions. Set a daily or 7-day timer, adjust the heat with the integrated thermostat or use the ingenious 'draft feature', which turns the heat off if a sudden drop in room temperature is detected, saving energy.

Media Base Unit Features

- Perfect for mounting a bespoke false chimney breast and TV
- The base can be installed both floor standing and wall mounted
- Bespoke sizes available on request

Fire Features

- Smart remote control with eco compliant features - see page 5
- 7-day programmable timer
- Tailored fuel bed options. Logs, ember effects & crystals
- Ambient fuel bed mood lights with thirteen colour options
- Realistic Live flame effect with three colour options each available with four mood settings
- Provides up to 2kW heat output with a flame only setting
- Eco Design compliant
- Flat to wall installation - No need for a chimney
- Smart app control
- Optional upgrade of real oak premium log set
- 5-year extended warranty

Napoli

A perfect mix of design detail and modern drama, the Italia Napoli Optimyst electric fireplace draws attention to the flames, creating a striking focal point in any room.

In a range of finishes so you can match it to your décor, the contrasting Grey Slate-effect chamber is home to the eye-catching and realistic Optimyst fire.

Blending the charm of a real fire with the convenience of an electric fireplace. Optimyst technology creates a fine mist which is illuminated to create the convincing 3-dimensional look of an open fire. A remote control allows you to enjoy warmth from the concealed heater or the Optimyst glow on its own for a welcoming look.

Features

- Optimyst realistic flame effect
- Smart remote control with Eco compliant features
- 7 day programmable timer
- Provides up to 2kW heat output with a flame only setting
- Eco Design compliant
- Flat to wall installation - No need for a chimney
- One year warranty

Available Finishes

- Sandstone
- Terrano Grey (as shown in image)
- Smooth White

Dimensions
