CELEBRATING 60 YEARS OF BUSINESS

Welcome

Welcome to our exclusive showcase of exquisite stoves, where the timeless allure of fire converges with contemporary living. Beyond mere warmth, our BeModern stoves promise to transform your home into a haven of comfort and sophistication.

Immerse yourself in the captivating ambiance that a BeModern stove imparts—an experience that can truly redefine your family life. Whether you're hosting gatherings, contemplating life's moments, or simply seeking solace, our stoves provide years of unparalleled pleasure.

Crafted with a fusion of cutting-edge technology and artisanal expertise, our stoves adapt to evolving lifestyles, boasting features that are exclusive to our brand. The culmination of precision machinery and skilled craftsmanship ensures each stove is meticulously hand-finished to perfection.

It's this delicate equilibrium between innovation and heritage that renders your centerpiece truly exceptional. As part of the BeModern® Group, we extend our commitment to quality by manufacturing a comprehensive range of products in-house. From surrounds and fires to fireplaces in marble and timber, our offerings cater to both traditional and contemporary homes. Explore our bathroom range, designed to complement diverse aesthetics, and discover the perfect synergy of style and function.

Electric Stoves

Reimagined for optimal convenience, our electric stoves seamlessly blend innovative design with an authentic visual experience. Meticulously crafted to replicate the mesmerising flames and smolder of a real woodburning stove, our product captures even the finest details.

Experience instantaneous warmth as our electric stoves effortlessly infuse your space with comfort. Boasting thermostatic remote control functionality and a versatile 7-day program, you can customise your heating preferences for lasting comfort. Alternatively, manual options offer you the flexibility to tailor the ambiance to your liking.

Matt Black

W122mm x H195mm x D195mm

*Handle and / or skirt will protrude over the front of the hearth slightly.

Gas Stoves

The captivating flame produced by our meticulously handcrafted ceramic logs or coals in our Gas stoves is strikingly authentic, evoking the ambiance of a real fire. Simultaneously, the heat generated mirrors the quality warmth emanating from our multifuel stoves.

Whether you prefer a manual touch or the convenience of remote control, our stoves offer effortless control, allowing you to optimise the heat output from a roaring blaze to a subtle smolder.

With a robust construction featuring cast or steel materials, and the option to customise with fuel bed and door inserts on select models, our stoves are designed to seamlessly complement the aesthetic of your home, whether it leans towards traditional or contemporary style.

Multifuel Stoves

Our multifuel stoves proudly achieve the highest energy efficiency class (EEC) ratings of A, solidifying their position as leaders in minimising carbon footprint.

Aligned with Ecodesign Ready 2022 standards, our stoves are engineered to burn at elevated levels within the firebox. This strategic design substantially diminishes the release of organic particles, resulting in a remarkable reduction in emissions and a tangible positive impact on carbon reduction.

With the innovative Actiview™ system, all our stoves maintain clear glass for extended periods, enhancing both functionality and aesthetics.

Caring for your stove

All multifuel stoves must be installed and commissioned by HETAS registered heating engineers or a competent person registered with the Government approved competent persons scheme.

A site survey should be carried out prior to any appliance purchase to ensure the suitability for your property. Sealed heating system installations should only be carried out by engineers who are suitably qualified.

All gas stoves must be installed and commissioned by Gas Safe engineers.

Failure to comply with these requirements will invalidate your product warranty.

WARRANTY

All multifuel stoves come with a 5 year guarantee from the date of purchase.

Gas and electric appliances carry a 12 month warranty which covers any manufacturing faults.

It is important to note that a number of components in your stove are classed as consumable and therefore will need to be replaced from time to time (consumable parts include grates, firebricks and rope. This also includes LEDs in electric stoves.) Glass does not carry any form of warranty, this is because the glass can only break through mechanical impact.
